SUMMARY

Motivated Computer Science undergraduate specializing in Artificial Intelligence with strong expertise in backend development and scalable system design. Experienced in building production-level MERN applications including payment workflows, REST APIs, and optimized data handling systems. Passionate about solving real-world problems with a focus on performance, reliability, and clean architecture.

EDUCATION

NIET Greater Noida <i>B.Tech in Computer Science & Engineering (AI), CGPA: 8.12/10</i>	Greater Noida, Uttar Pradesh 2023 – 2027
GSAS Academy, Basti <i>Intermediate (Class XII) - 75.6%</i>	Basti, Uttar Pradesh 2022 – 2023
GSAS Academy, Basti <i>High School (Class X) - 88.33%</i>	Basti, Uttar Pradesh 2020 – 2021

PROJECTS

Payment Gateway Clone (Node.js, Express.js, MongoDB, Authentication, Authorization) [GitHub](#)

- Built a scalable payment processing system with secure transaction flow, order lifecycle management, and failure handling.
- Designed backend architecture inspired by real-world systems like Juspay with modular services and API-driven workflow.
- Implemented authentication, payment validation, and optimized request handling for reliability and performance.

E-Commerce Tech Store (React.js, Node.js, Express.js, MongoDB, Authentication) [GitHub](#) | [Live](#)

- Developed a full-stack e-commerce platform supporting product browsing, cart management, and secure checkout.
- Implemented REST APIs for authentication, order processing, and transaction handling with optimized database queries.
- Improved user experience with responsive UI and efficient state management for smooth interactions.

Social Media Platform (React.js, Node.js, Express.js, MongoDB, JWT Authentication) [GitHub](#) | [Live](#)

- Engineered a scalable social platform with posts, comments, user authentication, and dynamic content feed.
- Developed efficient backend APIs and optimized data fetching for improved performance.
- Focused on responsive design and seamless user experience across devices.

TECHNICAL SKILLS

Languages:	C++, JavaScript, SQL
Frameworks:	React.js, Node.js, Express.js
Databases:	MongoDB

Developer Tools: Git, Docker, VS Code, Google Cloud Platform

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

ACHIEVEMENTS

- LeetCode: Solved 500+ problems with 1600+ rating
- CodeChef: Achieved 1500+ rating
